

Fisheries Strategic Framework

Vision Statement

- Profitable primary industries for Queensland

Fisheries Framework

Three levels, each of which requires significant effort to achieve alignment:

- Strategic level
- Instrumental level
- Relationship level

Strategy

- To connect fisheries management strategy with the Department's strategic direction

Instruments

- To align the policy tools to the desired outcomes

Relationships

- To design a strategic framework that provides an improved model for partnership development

What does Fisheries do?

- Protect Habitat
- Manage Harvest
- Maximise Value

Principles

It is proposed that fisheries development should be:

- Driven By Knowledge
- Informed by Relationships
- Delivered by Partnerships
- Founded on Responsibility
- Sustained by Investment

Challenge 1

- The Main driver of fisheries management is currently ESD
- The main delivery method is the regulatory framework.
- The challenge is to transform fisheries policy in strategic directions driven by knowledge and contemporary fisheries practice.

Challenge 2

- Procedures lie at the heart of fisheries policy and program delivery. DPI&F delivers fisheries outcomes directly, using regulatory and procedural tools.
- The challenge is to transform fisheries management partnerships where delivery is achieved flexibly, responsively and efficiently.

Challenge 3

- The foundation of fisheries policy is currently enforcement, procedures and regulations.
- The challenge is to build frameworks for responsibility that provide for:
 - Enhanced profitability
 - Sound habitat management
 - Sustainable, safe and ethical fishing

Challenge 4

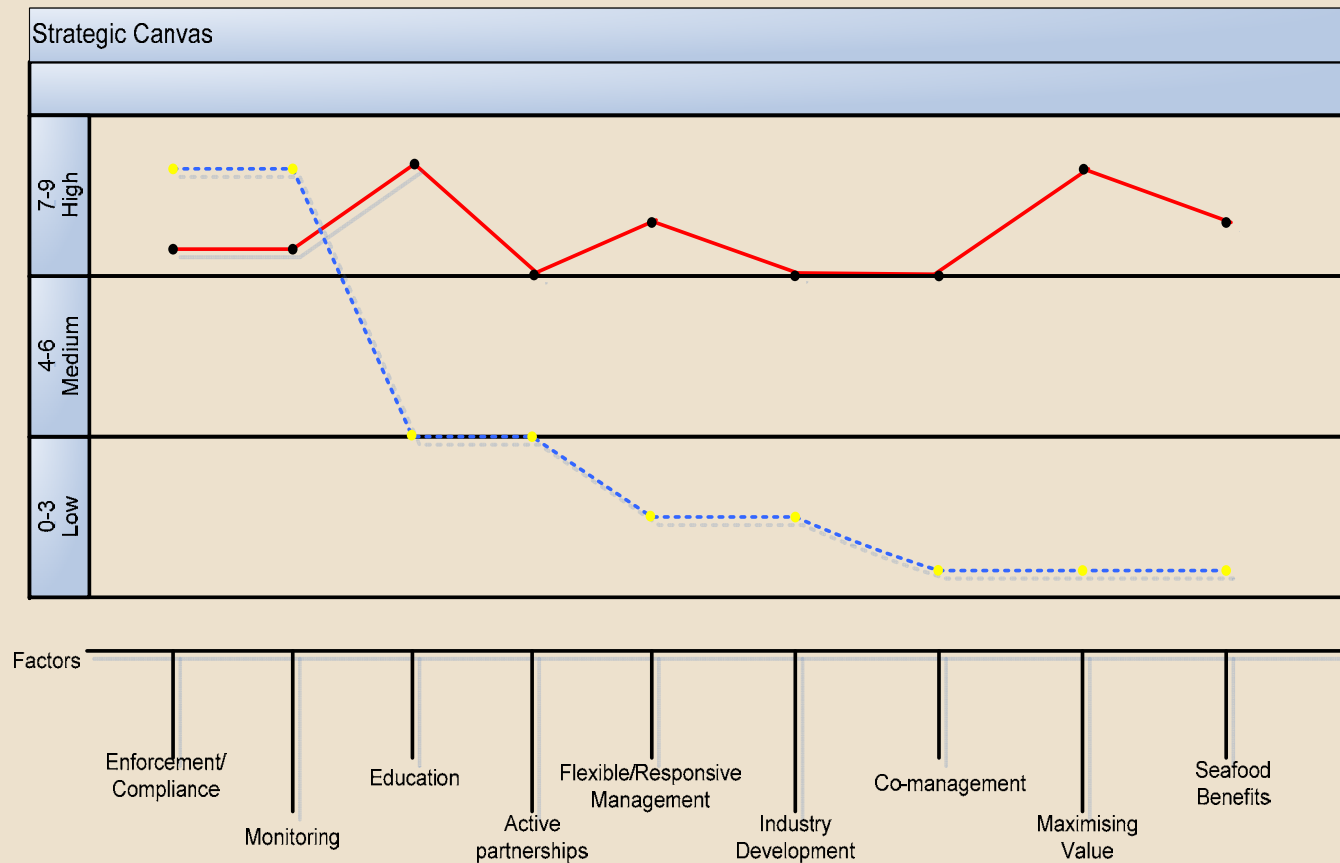

- The challenge is to transform the environment to one of investment in strong, viable, valuable fisheries and allied industries through programs and partnerships that deliver return on investment.

Summary of Challenges

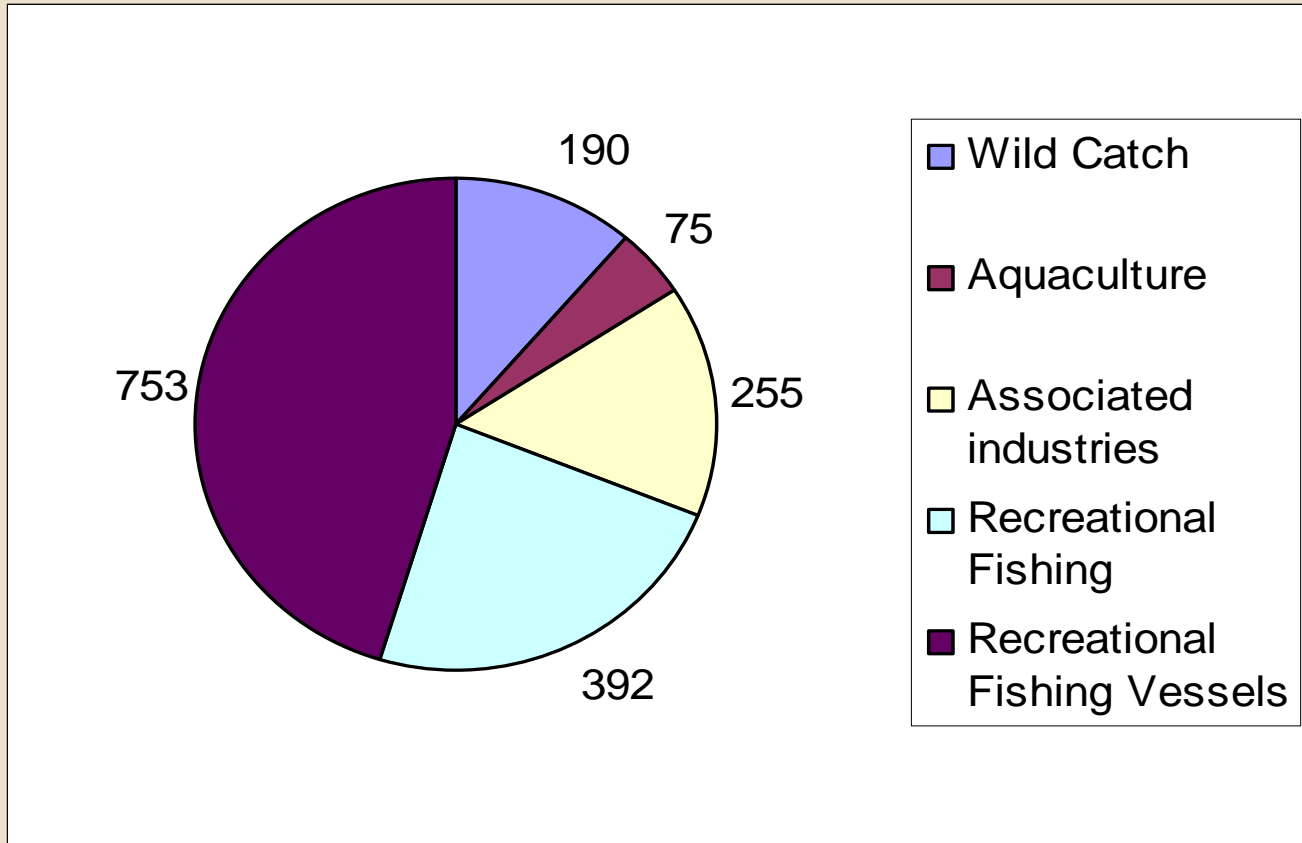

| | from | to |
|--------------|--------------------|-----------------------|
| driven by | <i>Regulation</i> | Knowledge |
| informed by | <i>Authority</i> | Relationships |
| delivered by | <i>Procedures</i> | Partnerships |
| founded on | <i>Enforcement</i> | Responsibility |
| sustained by | <i>Allocation</i> | Investment |
